

Aftermarket Distributors to the Manufactured and Modular Home Industry

March 2020

The well-being and safety of our customers and employees is very important to us. Let us assure you that we take this Coronavirus crisis very seriously to the point that we are taking extra preventative precautions to make our facilities safe for anyone.

We are wiping down, sanitizing, washing our hands – going over and beyond to make sure we and you are safe.

We are asking that you and your employees take the same preventative measures to protect us all.

We intend to remain open to serve your needs.

We can always take orders for pickup at any our stores via phone, or email.
